

CARPET *for A-WALL modular buildings*

A-WALL Building Systems has partnered with the largest manufacturer of carpet tile, Interface, to save you time & money without sacrificing the quality of the carpet.

CARPET ORDERS ARE PLACED DIRECTLY THROUGH A-WALL

No need for an additional quote or waiting on a separate contractor to come out.

IN STOCK, READY TO SHIP

This means, access to a selection of carpet types and colors that are ready to ship with your modular building/enclosure order.

SIMILAR TO A-WALL'S PRODUCTS, THESE CARPET TILES ARE SUSTAINABLE & REUSABLE

TACTILES IS INTERFACE'S PROVEN GLUE-FREE INSTALLATION SYSTEM

With more than 20 million square yards installed since 2006, TacTiles is the proven glue-free installation system. Inspired by the gecko's ability to seemingly "stick" to surfaces, the TacTiles system creates a stable carpet tile installation with no glue at all. It's easy to use, creates less mess and provides greater flexibility for installation and selective replacement. With virtually zero VOCs and an environmental footprint that's more than 90% lower than traditional carpet adhesives, TacTiles are a perfect fit with your sustainability initiatives.

TO SUM UP SOME OF THE MAJOR BENEFITS

- In-stock materials will allow for a quick production time
- Yarns have an inherent soil/stain protectant and preservative protections to inhibit growth of mold should carpet be exposed to moisture
- No glue-down method: Use of Interface's TacTiles ensures no adhesive residue remaining on subfloor when/if carpet tiles are removed
- If modular office needs to be moved, carpet tiles installed with TacTiles allow for easy demo of carpet and re-use of carpet
- Carpet tiles won't fluctuate in size due to temperature fluctuations
- Color will not fade over time or with exposure to cleaning agents
- Wall-to-wall carpet tile provides increased acoustical value within the space
- At end of life, carpet tile can be recycled back into carpet tile directly with Interface
- Materials are 100% carbon neutral

PRODUCT SELECTIONS FOR ALL BUDGETS: TIER 1

Tier 1, Option 1: Open Air 404; Color: Iron (106746)

*Individual Tile View
Measures 25cm x 25cm*

*Plan View, Several Tiles Installed
Installation: Non-Directional*

*3D View, Installation
Installation: Non-Directional*

Tier 1, Option 2: Open Air 404; Color: Nickel (106750)

*Individual Tile View
Measures 25cm x 25cm*

*Plan View, Several Tiles Installed
Installation: Non-Directional*

*3D View, Installation
Installation: Non-Directional*

GENERAL PACKAGING INFORMATION

Carpet Tile: Packaged at 5.98 SY per carton; Qty. (20) tiles

Recommended Additional Qty. for Cuts/Extra: 10% on top of raw quantities

Adhesive Method: TacTiles, packaged at qty. (500) TacTiles per roll; Qty. (4) TacTiles required per 1 SY

For more product information, call 216-252-9292.

PRODUCT SELECTIONS FOR ALL BUDGETS: TIER 2

Tier 2 Option: Stitchery; Color: Gray Stitchery (105933)

*Individual Tile View
Measures 25cm x 1cm*

*Plan View, Several Tiles Installed
Installation: Random Ashlar*

*3D View, Installation
Installation: Random Ashlar*

PRODUCT SELECTIONS FOR ALL BUDGETS: TIER 3

Tier 3 Option: 799; Color: Midnight (104918)

Walk-off Tile Material (*rough texture to scrape or wipe debris from under soles of shoes*)

*Individual Tile View
Measures 25cm x 25cm*

*Plan View, Several Tiles Installed
Installation: Quarter-Turn*
