Two-Story Office with Mezzanine Structure

A-WALL modular systems are installed faster and are more flexible than permanent construction. They require fewer parts than comparable building systems and the electrical devices are factory installed in the wall panels.

Why Choose Modular vs. Permanent Construction

Modular construction delivers the speed and flexibility today's businesses need – without the mess, downtime, or limitations of permanent stud & drywall construction.

SPEED:

- **Faster Installation:** Pre-engineered panels with windows, wiring, receptacles, switches, and data boxes pre-installed.
- **No Finishing Hassles:** A-WALL's prefinished panels mean no taping, sanding, or painting required.
- **Minimal Disruption:** Quiet, clean construction means little disturbance to your daily operations.
- **Quicker Turnaround:** An A-WALL modular structure can be completed in as little as 1/3 the time as permanent construction.

COST:

Costs are based on a 12' x 12' office space.

FLEXIBILITY:

- **Adaptable Design:** Panels are interchangeable and 100% reusable.
- **Future-Proof:** Expand, rearrange, or relocate your building as your needs change.
- **Portability:** Disassemble and move your investment to a new area or facility.

ADDITIONAL BENEFITS:

- Fire-safe construction
- Simple assembly with common hand tools
- Significant tax savings compared to permanent construction

Freestanding Partition Walls

Prebuilt, Forkliftable Office

Fast, Flexible, Affordable Construction

CMM Room

Create Controlled Environments

A-WALL environmental rooms create the conditions you require to meet today's strict manufacturing standards. Whether you need a cleanroom to improve process quality or meet a regulatory standard, an isolation room to enclose a "dirty" process from the rest of your facility or a temperature controlled CMM room, A-WALL offers a cost-effective solution.

Tumbling Room

Machine Enclosure, Smooth FRP Finish

Climate-Controlled Break Room

Process Enclosure with Conveyor System Integration

Cleanroom

One-Stop Shop

Factory Installation

No need to find your own installation crew, our installers can get your system assembled in no time!
